We chose Linda, a bountiful beauty from Darwin, Australia, as a very special treat for all you dedicated "tit-men"...
Linda stammt aus dem fernen Darwin in Australien - und wenn sie nicht gerade tickt, jagt sie Krokodile!
Nous (la C.C.C.) avons choisi cette beauté, Linda, tout particulièrement pour les «mammaristes» confirmés...
Elegimos a Linda, una exuberante tía de Australia, como un premio especial para los «tetaficionados»...

Linda

This is a somewhat like fruit. Some girls have apples and some have melons, but Linda's boobs are just like a couple of juicy, ripe pears. Anybody fancy a bite?

Alle die Typen wollen natürlich sofort wissen, welche Obstsorte Linda ihr eigen nennen kann. Linda mit nur am meisten ähnelt Pfirsichen. Sie sind schön saftig und reif. Hat jemand Lust, in eine hineinzubeißen?

Si nous allons comparer les seins à des fruits, nous dirons que ceux de Linda ressemblent à de grosses poires, au lieu de vous les promener. Hum, ça donne envie de croquer dedans...

Las tetas a menudo parecen frutas. Algunas chicas tienen manzanas y otras melones, pero las tetas de Linda son como un par de peras maduras y bien maduras. ¿Quién quiere un bocado?
